

## 2BU Studios Camp Programs

### Let's Just Play Activity

Our Let's Just Play offering allows campers to play in our studios. This is the perfect activity for big group field trips. This offering gives campers the opportunity to sample all of our experiences. With assistance from your team leaders, we divide the campers up into different groups that participate in different activities: singing in our recording studio, performing in an interactive virtual green screen / music video experience, drawing basic comic book characters, and participating in creative writing activities (depending on group size and director availability). We tailor the experiences to ages of the campers and create multiple experiences for groups that include different age groups.
